Mission: *To provide a safe learning environment that prepares, challenges, and inspires students for life*

March 27, 2017

Greetings from Hayfield Community Schools! We are entering the final quarter of the 2016-2017 school year and are very proud of the progress and achievements our students and staff have accomplished throughout the course of this year.

As you may be aware, Hayfield Community Schools has been studying the status of our facilities and working to determine the next steps in meeting the needs of our current and future students, staff and community members. We have learned a great deal about the condition of our facilities since we began this journey. The School Board members have been discussing the condition of our facilities in detail and we have shared the information with our staff members.

At this time, we are interested in involving members of our community in this process. We invite you to attend an information session and a tour of the facility. After the completion of the tour, we will come back together to discuss what the perceived priorities are that the group wants to provide to the School Board for consideration.

The schedule for the information sessions and tours is listed below and we ask that you RSVP so that we can get a count for how many participants will be in attendance. To provide those in attendance an opportunity to fully participate in the information session and tour, we will be limiting the groups to a maximum of 20 people. All sessions will begin in the Hayfield High School Library. The sessions are expected to be approximately two hours in length.
